

Capability Statement

AbacusOne provides versatile, multifaceted revenue cycle services in the healthcare sector. We work closely with our partners to help them meet financial targets while exercising the highest levels of compliance and mitigating risk through audits. Through our work, which emphasizes coding, compliance, and education we aim to simplify the medical coding process to help reduce risk and increase value for the medical practitioners, including but not limited to medical professional and technical coding, medical billing, credentialing, auditing, compliance and education for providers and coders to reduce risk, ensure compliance and in all aspects of the revenue cycle. We specialize in Emergency Departments, Free Standing Emergency Departments, Urgent Care, Hospital Medicine, Behavioral Health, Neurology, Surgery and other multispecialties.

By creating a business dedicated to make the revenue cycle, specifically medical coding and billing, more efficient we created a proprietary cloud-based coding platform consisting of coding applications, enhanced calculators, and a data lake for enhanced analytics and reporting. Our calculators address the deficiencies in typical coding/billing platforms including an Infusion and Injection calculator that enhances accurate and compliant billing and our Evaluation and Management calculators to increase accuracy and visibility into what is coded. All data within the platform from the coding application to calculators is housed in a FHIR compliant data lake to provide detailed reports on demand as well as routine, so you always know where you and the practice stands to quickly make key business decisions. The data collected allows us to create education tailored to the provider, the practice, a group available in person or on demand through our web-based portal.

Core Competencies

- Medical Chart Review
- Consultant
- Baseline audit
- Evaluation and Management (E/M)
- Physician chart review
- Compliance
- Quality and assurance
- CCI edit
- Physician education
- Audit Professionals
- Compliance audit
- Request for proposal (RFP)
- Risk adjustment HCC
- Medical billing coding and auditing
- Review physician practice billing and coding
- Documentation Improvement
- CMS guidelines
- Payer guidelines
- Medical Auditor
- Medical coder
- American Health Information Management AHIMA
- Certified Professional Coder CPC

NAICS Codes

- 541219 Other Accounting Services (P)
